Compelling reasons for napkins with promotional printing

First impressions make all the difference in the world and a cultivated ambience makes a guest feel welcome right off. Stylishly printed items are better than any business card for conveying excellent cuisine, the best service, an appealing ambience and an establishment's overall standards. The touch of the napkin imparts a "feeling" for the atmosphere as soon as the guest sits down at the table. Objects with high-quality printing project the image of the establishment and are an integral part of successful advertising.

More success in just a few steps

Having a printed product is surprisingly simple. It always begins with a creative idea of how the product should be designed. Either you send us existing logos or draughts designed by graphic artists or agencies – ideally on data carriers – or you simply take advantage of our designing competence! You will find plenty of printed borders, lettering and standard motifs to serve as inspiration and templates.

Step-by-step guide

Step 1| Together, we define which product (item, material, 1/8 or 1/4 fold ...) we can print for you.

Step 2| Our sales force will help you to specify the printing colours of your logo, the best placement for the print and all details for other printing elements that you would like to have. The best way is to work based on your digital data.

Step 3| The specialists from our Graphics Department will create the artwork for your personalised product. You will then receive a data file for approval.

Step 4| Please check the documents carefully and send us your approval. After release, the order will be planned for production.

Step 5| The printing clichés are produced according to your approved artwork. Your order will be produced and delivered within 4 to 6 weeks after we have received your approval.

Step 6| From then on, your guests can experience your personalised high quality products made from the best materials. Repeat orders can be produced simply and quickly.

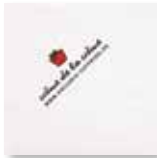

White Tissue and Paper Napkins

Nearly all napkins, placemats, slipcovers and reels, both white and coloured, can be personalised. Negative prints, which use the white material for displaying writings contours and elements also can be an interesting solution. You can choose from a wide variety of decorative borders and motifs.

Less is more

When it comes to the design of printed napkins, less is usually more. Our napkins can be printed over the entire surface in four spotcolors. We recommend printing over the visible area and limit the number of printing colors – less is more.

Coloured Tissue Napkins

Most of our coloured products can be personalised as well. On the following pages, you can find the material colours we offer. The wide colour range allows you to combine the personalised products with our unprinted standard and design articles like placemats, Tête-à-Tête, table runners etc.

Find the winning combination

For lighter colours such as yellow or champagne, combining colours is also possible. However, the darker the colour of the paper, the less ink you should choose. Subtle tone-on-tone printing is very elegant and differs only slightly from the ink colour of the paper.

Duniletto® & Sacchetto®

Duniletto® is another smart Duni Napkin concept. Perfect for saving time when you have to set the table for large numbers of guests: it's a napkin and cutlery bag in one. Sacchetto® is a time-saving solution. The pocket is ready filled with a napkin; you only need to put in your cutlery. The printing possibilities are almost unlimited.

The ideal advertising medium

Sacchetto® Bags are a prime advertising medium and can be printed extensively and accurately. Since the pocket is made of paper, printing photos or elaborate lettering is easily done. And the reverse side is also great for advertising of all kinds.

Promotion and more ...

Objects with high-quality printing strengthen the image of the establishment and are a part of successful advertising.

Using Duni personalised products is a creative way of displaying one's brand for the branded industry, branded gastronomy, franchise companies and at trade fairs. In the field of promotions and advertising it is an efficient "low-budget mass media" item for carrying advertising slogans. The following pages feature a selection of promotional printing products we have produced.

Maximum exposure

Unlike other advertising media, a print napkin goes directly into the hand of the guest, giving it maximum exposure. No medium gets closer to the eye of the beholder as a napkin that is lead to the mouth.
